

BUILD PROJECTS MOST TRADESPEOPLE ONLY DREAM ABOUT

Work on award-winning architectural homes with one of New Zealand's leading roofing and cladding teams.

ARCHITECTURAL ROOFING • CLADDING • CUSTOM SHEETMETAL

Why Join Architectural Metalformers

We work on some of New Zealand's most distinctive architectural homes and buildings. From complex standing seam roofing to bespoke sheetmetal features, our team delivers projects that challenge, develop and reward skilled tradespeople.

We Are Looking For

To continue our growth, we are looking for experienced roofers or capping/flashings installers to join our team.

This can be experience in roofing, cladding or sheetmetal industries.

Here's why working with us will be a great career move for 2026:

- ✔ A great wage and package which is linked to your skill set and experience
- ✔ All tools, uniform & PPE provided
- ✔ Working on a variety of jobs with leading building firms and being part of the team that win multiple gold awards
- ✔ On-going training provided
- ✔ Exciting career growth and company culture that values and rewards their teams

Job Description:

- Installing Standing Seam roofing, cladding and flashings with full support from our experienced team
- Delivering a high standard of workmanship
- Working on historically, culturally significant, and high end residential (no boring work here)

Job Requirements:

- Minimum of intermediate level of experience or experienced Team Leader
- Knowledge of building & construction
- Great people skills
- Good oral and written communication skills
- Leadership of an on-site team or if intermediate level training will be provided
